Terms & Conditions of Internship

Your internship with AxonCore Technologies shall be governed by the following terms and conditions, which may be amended by the company from time to time.

You are being selected for 1-3 months internship. During this period, you will be required to complete the assigned training modules on our partner platform and subsequently work on a live project in accordance with the project requirements outlined in the project proposal. Upon successful completion of the internship and submission of the assigned project, you will receive a stipend as per Annexure–A.

All work created by you during or in connection with your internship at AxonCore Technologies shall remain the exclusive intellectual property of the company. You are strictly prohibited from copying, storing, sharing, selling, or distributing any company-related material to third parties under any circumstances. You are also expected to refrain from discussing or publishing any work-related information on public platforms, whether online or offline.

Throughout the internship, you will be required to use a computer system and maintain a stable internet connection to ensure uninterrupted participation in training and project activities.

The internship will be conducted in remote mode, and all tasks, assignments, and project submissions must be completed and submitted through the company's Learning Management System (LMS).

We will assign you project along with client for your stipend after completion of your training module and submission of project mentioned on lms portal.

After completion of your training module and submission of your dummy project, our team will verify it. Once approved, real work will be assigned. Stipend will be provided only after completion of the real work, not during the training module.

Once you complete your training modules and submit the dummy project, our team will verify it properly, and after successful approval, you will be assigned a real client project for stipend-based work, stipend starts after working on real client projects, and after completing your training modules, you will also become eligible to apply for your Internship Certificate.
